Formatted: Font: (Default) Arial, 11 pt, Italic

Formatted: Font: (Default) Arial, 11 pt, Italic

SECTION 2. COMPLIANT PHONE MODEL INFORMATION

a. Compliant Phone Models

Model	Band(s)	Air Interface(s)	ANSI C63.19 Rating	FCC ID
Motorola V3i	850/900/1800/1900	GSM	M3/T3	IHDT56GW1
Nokia 6126	850/900/1800/1900	GSM	M3/T3	PPIRM-126H

b. Total Number of Compliant Models by Air Interface

c. Total Number of Models (US) by Air Interface

Air Interface	Number of Models	Air Interface	Number of Models
GSM	2	GSM	17
TOTAL	2	TOTAL	17

SECTION 3. PRODUCT LABELING INFORMATION

The Motorola V3i says "Rated for Hearing Aids: M3/T3" in fine print on the side of the box. The Nokia 6126 says "M3T3" in large letters on the side of the box.

SECTION 4. CONSUMER OUTREACH EFFORTS

i wireless has provided information on hearing aid compatible models to our customer service call centers and sales channels.

SECTION 5. RETAIL AVAILABILITY OF COMPLIANT MODELS

The Motorola RAZR V3i and Nokia 6126 are available for purchase from all of our retail stores, our Tier I and Tier II dealers, our website and our telephone sales call center. If a handset is out of stock at a sales location, a replacement can usually be acquired in no more than two business days. A handset ordered from our website or call center before noon will usually be delivered to the customer the next business day.

SECTION 6. EFFORTS TO INCORPORATE HEARING AID COMPATIBILITY INTO NEW MODELS

i wireless seeks out hearing aid compatible models, but we continue to be limited by the choices provided to us by the manufacturers.

SECTION 7. ACTIVITIES RELATED TO ANSI C63.19 OR OTHER STANDARDS

We carry handsets from **Motorola, Nokia, Samsung, Sony Ericsson, HP, HTC and Pantech**. Four of these seven handset manufacturers participate in the ATIS Incubator Solutions Program 4 – Hearing Aid Compatibility. They have been active in addressing and revising standards related to hearing aid compatibility (HAC).

SECTION 8. EFFORTS TO TEST INTEROPERABILITY WITH HEARING AIDS

As a smaller wireless carrier, we do not have the resources to test every handset with every hearing aid on the market. We rely on the manufacturers and third-party testing organizations to test interoperability.

SECTION 9. INFORMATION REGARDING DIFFERENCES IN HANDSET OFFERINGS AMONG REGIONS IN SERVICE AREAS *(Service Providers Only)*

All handsets can be purchased at all i wireless points of distribution. Our independent agents may not have a particular handset in stock, but can order one from our warehouse. An order placed before noon will usually be delivered to the agent the next business day.
